

IMPACTO Anti-Impact Glove

Utilizing Visco-Elastic Polymer (VEP) Padding Provides Impact, Shock & RSI Protection

- Made of stretchy Nylon Lycra material offering optimum breathability and comfort
- Contoured VEP 1/8" padding in the palm and thumb web area protects from impact
- Fingerless style leaves fingers free for tactile feedback and mobility
- Grain leather offers abrasion protection and glove durability
- Other Variations Available:
 - #502-00 - glove liner, no leather
 - #502-10 - suede leather cover
 - #704-10 - with suede leather wrist support
 - #704-20 - with grain leather wrist support
 - #714-20 - glove liner with suede wrist support

Model #502-20

IMPACTO anti-impact gloves utilize Visco-Elastic Polymer (VEP) padding. VEP has excellent impact absorbing and shock dissipation qualities as well as absorption of higher levels of vibration. VEP is made from polyurethane with additional chemicals that increase its viscosity level. It is effective in redistributing and reducing local pressure on the area padded. VEP will not "compression set", making it extremely durable to stand to rigorous repetitive tasks. IMPACTO offers a large line of VEP padded gloves to suit customized needs.

In Conformance with Norms

EN 388:2003

Protective gloves against mechanical risks

EN 420:2003
